I wondered if it was over and the mushrom was finally done with me but then i felt a fist ram straight up my now bloody oozing asshole and i cried in pain, the mushrom basically cold cocking my anus, i felt my bowels move, and suddenly i shit all over the mushrooms big meaty hand, the stench of my shit invading my nostrils and the sounds of blood and diarreadsf in the air, i wanted to die. the mushroom suddenly removed its fist from my sore rectum, i wanted it all to end. i was brought t to my knees and the mushrom shoved its bloody pooppy fist into my mouth, fisting my next hole. during all of this treatment i began to enjoy the taste of my own shit in my mouth, i could taste a hint of iron from my own blood, or perhaps it was the blood of many of the mushrooms vicitsm too? The longer this went on the more the mushrom shoved its fist deeper and deeper down my throat, i began to gag and uncontrollably vomit all over its fist. then i saw nothing but blacknes... IM DEAD
